

Gainsborough Primary School Primary School's Sports Funding 2021-2022 - REVIEWED

What is the Sports Premium? The Department for Education (DfE) are spending over £450 million on improving physical education (PE) and sport in primary schools. The funding will be allocated directly to primary school's to spend on improving the quality of sport and PE for all pupils.

Our school allocation Our school was expecting to be awarded **£18,810** for the academic year 2021-22, we were in fact awarded £18,240. See below for the breakdown of our spending and its impact.

2021-2022	Funding allocated	Impact
Nursery and Reception weekly P.E. for 2 hours to develop gross motor skills and learning in P.E.	£5,000	Children enjoy their P.E. lessons and make good progress in gross and fine motor skills. They are engaged in P.E. from 3 years old and build resilience, teamwork, ball skills and determination. They are able to transfer these skills to equipment in the playground and have a love of sport and P.E.
To run cross school competitions to increase active participation in competitions.	£3,000	Staff are released to coordinate and facilitate competitions across the PA Federation. Staff build skills in organisation and structures of league systems, refereeing and coaching. Children take part in competitive leagues. Children build skills in determination, resilience and team work. Children make friendships across the borough, play in teams and sports they may otherwise not have had experience of and develop self-esteem and sportsmanship.
To work towards Silver / Gold Healthy Schools status.	£3,000	Healthy Schools re-application has not occurred this year due to changes in leadership which have made it difficult to conduct the necessary needs analysis. Actions have been taken to ensure that the school is ready for reapplication, including developing the healthiness of school meals and packed lunches, focus on activity during break times and access to sporting competitions following reopening. Keep Healthy campaigns are well planned and led across the school in various year groups and as a whole school focus during the Summer term.
Provide free after school clubs for up to 20 children per half term to ensure access to sports after school clubs.	£2,000	After school sports clubs enable children to learn skills and keep fit. Free clubs enable those who may not be able to attend to experience new sports and develop a healthy lifestyle. Pupils who attend the after school clubs using free places report that if they were not attending, they would usually be sedentary at home, watching TV or playing games online.
To develop / maintain lunch time sports leaders to lead activities for their class / younger children. To ensure high quality equipment is provided to support this.	£1,810	Equipment has facilitated access to a range of activities at play and lunch times, including football, basketball, skipping, hula hooping and dodgeball. Pupils have remained in their own year groups at playtime this year but some pupils have taken on leadership roles within their year groups.
To run Personal Best sports competitions throughout the year to ensure high quality fitness and personal target setting.	£1,000	Personal Best approaches have not been facilitated this year due to demands on coaching time and in class PE sessions. The school has trained and researched personal best sessions for the coming year and intend to implement the strategy next year.
To provide a sports coach to lead lunch time provision to ensure that high quality activities are promoted and developed.	£3,000	As a result of the sports coach supporting lunch time provision there is daily access to a range of sports, including competitive activities, in the playground. This has improved participation and encouraged more children to engage positively with activity. The vast majority of children engage with sports during every play time.
Total spending	£18,810
